We Need YOUR VOICE to Pass Drug Court Reform

With two weeks left in this Legislative Session, things are moving quickly. We need your voice to reach out to your Representative and ask them to support the Senate Amendments on [HB 2153](#) by Rep. Ross Ford (R-Broken Arrow) and Sen. Micheal Bergstrom (R-Adair). HB 2153 is OML's priority that will help individuals struggling with addiction get the treatment they need and will help communities address critical public safety issues.

- HB 2153 seeks to get **repeat, habitual offenders** into a substance abuse diversion program.
- For all drug charges excluding marijuana, an individual would receive three convictions before being charged with a felony offense on the fourth conviction. This is modeled after recent DUI legislation.
- Beginning with the second offense, courts may, with consent of the defendant, order the defendant to complete a substance abuse assessment and evaluation and complete a diversion program. This does not apply to violations of possession of marijuana.
- A felony conviction will be downgraded to a misdemeanor offense after an offender successfully completes a treatment program.
- Loopholes created by State Questions 780 and 781 have allowed repeat, habitual drug offenders to simply pay a minimal fine, instead of going through Oklahoma's successful drug court system.
- When individuals are not incentivized to go through drug intervention programs and seek the treatment they need, they simply return to the same environment over and over, leaving municipalities with few options to address the underlying problems that subsequently often lead to homelessness, criminal activity, and more.
- State Question 781 established that funds that would have gone to incarcerating individuals in prison, would instead be allocated to addiction treatment and treatment programs. Oklahoma has a highly successful Drug Court system, but those who administer the programs have not seen the additional funding come into their programs.

- Municipalities are seeing meth and cocaine cases come through their traffic courts and we are not equipped to administer treatment programs for these individuals.
- We do not want to lock individuals up, or create enormous fines that offenders are unable to pay. We want to put an emphasis on **repeat, habitual offenders** going through treatment and the Drug Court program.
- Please reach out to your House Member and ask them to **VOTE YES** on HB 2153.

Stitt Vetoes OML's Open Records Bill

On Friday, May 5th, Governor Stitt vetoed OML's priority Open Records bill. [SB 715](#) by Sen. Kay Floyd (D-OKC) and Rep. Mark Lawson (R-Sapulpa) provided that if a public body determined to keep a requested record confidential pursuant to subsection A of this section, the public body shall notify the requestor of such decision. A person denied access to records may file an action pursuant to subsection B of Section 24A.17 of this title. Upon hearing, the court may order the release of the records if the court finds that the public interest in the records outweighs the privacy interest and shall order any redactions necessary to protect innocent parties including but not limited to personal identifying information. The court may award a requesting party court costs and reasonable attorney fees if it finds that the denial of access to the records by the public body was unreasonable.

Governor Stitt's stated that Enrolled Senate Bill 715 would create ambiguities and allow courts to engage in arbitrary balancing related to highly sensitive information sought pursuant to the Open Records Act.
